Make School Bus Safety a Priority

Riding a school bus in Europe is a lot different than in the United States, specifically that traffic does not stop for loading and unloading. There are several important actions parents can take to ensure their children's safety. Look at and know your children's route to and from the bus stop. Show your children how to go safely to and from their bus stop. Stress good behavior on the bus. Report safety concerns immediately to the school transportation office.

Parents should review these basic safety rules with their children: be on time (walk, don't run to the bus stop); wait for the bus three steps back from the curb; take your seat on the bus and stay in it; get off the bus, take three steps away and wait for the bus to leave and never cross the street in front of or behind the bus.
